

# 14<sup>th</sup> Asian Congress of Nutrition (ACN) Hangzhou China

**Feeding the Future by Sustainable Nutrition**

15 - 18, September 2023

**Chair of ACN 2023  
President  
Chinese Nutrition Society**

## Welcome Message

Dear colleagues and friends,

The Chinese Nutrition Society (CNS) and the Federation of Asian Nutrition Societies (FANS) are delighted to invite you to the Asian Congress of Nutrition (ACN). The ACN will be held on 15-18th (Friday to Monday) Sept 2023, in Hangzhou-China. Hangzhou is renowned as "paradise on earth" and one of the most historical and prosperous cities in China. The West Lake, located in the west of Hangzhou, is one of the few World Heritage Sites and the most well-known cultural heritage in China.

The theme of ACN 2023 will be "Feeding the Future by Sustainable Nutrition" ; we believe that developing nutrition research and application, strengthening multisector collaboration and encouraging international communication are all keys to accelerate the process to prevent chronic diseases and end all forms of malnutrition. Therefore, the goal of the congress is to promote nutrition and food sustainability as well as encourage exchange of scientific knowledge and experience amongst the leading nutrition and health researchers and professionals.

I am certain that everyone, from professionals to students, will be able to benefit from the congress as it will be packed with insightful and inspiring information. The congress will fortify the Asian and international network of researchers and professionals. I highly appreciate your attention and hope to see you in Hangzhou in 2023.
